

Sahibzada Muhamamd Jawad, a PhD scholar of the department of Zoology ,Islamia College Peshawar).

My research work has already been publicized on national and international media (Voice of America, BBC Pashto, DW NEWS and Current AFFAIRS from Germany ,ARY ,24 NEWS ,HUM NEWS,AAJ NEWS ,MASHRIQ NEWS etc. , which has brought a good name to Pakistan. If we get projects on this research our research will be broadcasted on international Television channels like Animal Planet, Discovery , National Geographic ,BBC Earth and Real Wild etc. which will present a soft image of Pakistan and KP.

It is also requested to allocate us some time on national television (PTV) for research, it will prove quite helpful in conveying our research to the world .
